Hard Tags

Tag Detacher

Labels

Label  
 Deactivator

8.2 Phazor  
 MHz Panels

**Phazor Detection System Features:**

- Able to detect hard tags approx 3 to 4 feet on either side
- Able to detect labels approx 2.5 to 3 feet or more on either side
- Multiple units can be placed to protect a wider opening
- System can be easily installed by the customer 3 Year Limited Warranty

**System Specifications:**

The 8.2MHz Phazor System is a transceiver system that requires only one antenna to make it work. This system can detect both hard tags and labels. These systems require no synchronization between multiple panels nor do they require synchronization to our deactivators. This significantly reduces installation time as well as servicing. The use of a transceiver system greatly reduces the instances of "phantom" or false alarms.

**Electrical:** Input 110 - 120 VAC - Output 14 VAC **Height:** 60.5 (152.4cm) - **Weight:** 11 lbs (5.7kg) - **Depth:** 1" (2.54cm) - **Width:** 14" (30.48cm) - **Frequency:** 8.2MHz
